10. *Dental Disease:* Within ten years, the number of children & adolescents (ages 0-17) with reported dental disease will decrease from \_\_\_\_% to \_\_\_\_% as measured by... *Source: SB Co Public Health Dept Children's Dental Disease Prevention Program*

## **EDUCATION**

1. *Achievement Gap:* Within ten years, we will reduce the achievement gap in 3<sup>rd</sup> grade reading levels at 50% or higher between white students and Latino students from 42% to 15% as measured by the currently recognized reading test that most resembles the baseline test of CAT 6.
2. *Achievement Gap:* Within ten years, we will reduce the achievement gap in 3<sup>rd</sup> grade reading levels between non-economically disadvantaged and economically disadvantaged students from \_\_\_ to \_\_\_ as measured by...
3. *School-readiness:* Within ten years, the percentage of children age 3 to 5 who have at least three to four school-readiness skills (1. recognize letters, 2. count to 20 or higher, 3. write their names, and 4. read or pretend to read) will increase from \_\_\_% to \_\_\_% as measured by... *Source: National Household Education Survey, Center for Education Statistics*
4. *Reading proficiency:* Within ten years, the percentage of fourth graders reading at “proficient” level will increase from \_\_\_% to \_\_\_% as measured by... *Source: National Center for Education Statistics*
5. *Graduation Rates:* Within ten years, the percentage of high school students who graduate on time will increase from \_\_\_% to \_\_\_% as measured by... *Source: National Assessment of Educational Progress*
  - a. *Within two years, all South Coast high-schools will use the graduation rate definitions identified by Dr. Rumsberger of UCSB Research Project: “How to Define Graduation Rates.”*
6. *Young Adult Education:* Within ten years, the percentage of 18-24 year-olds who are not in school or working full or part time will decrease from \_\_\_% to \_\_\_% as measured by... *Source: Population Reference Bureau calculation of data from the American Community Survey*
7. *Critical thinking:* Within ten years, critical thinking skills scores amongst eighteen year olds entering college will increase from \_\_\_ to \_\_\_ as measured by... *Source: Santa Barbara City College*
8. *Parental Involvement:* Within ten years, the percentage of parents involved in their child’s education will increase from \_\_\_% to \_\_\_% as measured by...
9. *High School Exit Exam:* Within ten years, the percentage of students who successfully complete the high-school exit exam on time will increase from \_\_\_% to \_\_\_% as measured by...
10. *Service Learning:* Within ten years, the percentage of teenagers who are involved with career mentor(s) will increase from \_\_\_% to \_\_\_% as measured by...
11. *Graduates:* Within ten years, the number or percent of Latino graduates expulsions will increase from \_\_\_ to \_\_\_ as measured by...
12. *Graduation:* Within ten years, the number or percent of Latino economically disadvantaged graduated will increase from \_\_\_ to \_\_\_ as measured by...

## **SAFETY**

1. *Foster Care*: Within ten years, the number or percentage of children population living in Foster Care will decrease from \_\_\_ to \_\_\_ as measured by... *Source: Department of Social Services (DSS)*
2. *Domestic Violence*: Within ten years, the number or percentage of Domestic Violence related calls for assistance will reduce from \_\_\_ per year to \_\_\_ per year as measured by...
3. *Gang activity*: Within ten years, the number or percentage of gang related referrals (13-17 years old) to the probation system will decrease from \_\_\_ to \_\_\_ as measured by...
4. *Consistency in School Attendance*: Within ten years, the number of children who attend the same school for more than \_\_\_ years will increase from \_\_\_ to \_\_\_ as measured by...
5. *Foster Care*: Within ten years, the number of children per 1,000 children who enter foster care on July of each year will decrease to/by \_\_\_ as measured by...
  - a. e.g. 2005 = 4.3
  - b. 2004 = 3.3*Source: <http://cssr.berkeley.edu>*
6. *CWS Referrals*: Within ten years, referrals to Child Welfare Services for ages 0-17 per 1,000 children will decrease to/by \_\_\_ as measured by...
  - a. e.g. 2005 = 40.0
  - b. 2004 = 43.0*Source: CWS/CMS CAD*
7. *Referrals to Principals*: Within ten years, the number or percentage of students referred to a principal for bullying activity will decrease to/by \_\_\_ as measured by...
8. *CWS Referrals II*: Within ten years the number or percentage of 0-17 year olds referred for investigation and outcomes of investigation by the fiscal year the referral was received will decrease to/by \_\_\_ as measured by...
  - a. e.g. 2005 = 4,116
  - b. 2004 = 4,211*Source: CWS*

## **STABILITY**

1. *Housing:* Within ten years, the percentage of lower income working families (200% or less of FPL) that spend more than 40% of their income on housing will decrease from \_\_\_% to \_\_\_% as measured by... *Source: Population Reference Bureau calculation of data from the American Community Survey*
2. *Low income families:* Within ten years, the percentage of families that are lower income (200% or less of FPL) will decrease from \_\_\_% to \_\_\_% as measured by... *Source: Population Reference Bureau calculation of data from the American Community Survey*
3. *Low Income Savings:* Within ten years, the percentage of lower income families (200% or less of FPL) with at least \$300 in a checking or savings account will increase from \_\_\_% to \_\_\_% as measured by... *Source: Beacon Economics calculation of data from the Survey of Income and Program Participation, Bureau of Labor Statistics*
4. *Homeownership:* Within ten years, the homeownership rate among lower-income working families (200% or less of FPL) will increase from \_\_\_ to \_\_\_ as measured by... *Source: Population Reference Bureau calculation of data from the American Community Survey*
5. *Basic needs (food, clothing, shelter):* Within ten years, the percentage of children living in poverty (200% or less of FPL) will decrease from \_\_\_% to \_\_\_% as measured by... *Source: Santa Barbara County Public Health Department*
6. *Transportation:* Within ten years, the number of miles of public transportation available in South Coast will increase from \_\_\_ to \_\_\_ as measured by...
7. *Community involvement:* Within ten years, the percentage of families engaged in community involvement activities (church attendance, AYSO, community meetings, etc.) will increase from \_\_\_% to \_\_\_% as measured by...
8. *Workplaces:* Within ten years, the percentage of family-friendly workplaces (# of employers in workplace with formal 'family-friendly' personnel policies) will increase from \_\_\_% to \_\_\_% as measured by First 5 Santa Barbara County.
9. *Child-care:* Within ten years, the percentage of household income spent on child-care will decrease from \_\_\_% to \_\_\_% as measured by...
  - a. e.g. 2006 = Center Care Infants: 23%, Center Care Preschool: 18%, Family Care Infants: 18%, Family Care Preschool: 16%
  - b. Median family income (2006): \$48,176
10. *Child-care:* Within ten years, the percentage of licensed care placements to the children needing child-care services will increase from 49.2% to \_\_\_% as measured by Community Care Licensing and the US Census
